Hi Peter,

Accepted the edits. Attached are the clean copies. We have specifically stated in both the memo and the report that they cannot report data for those methods without providing us proper documentation that the analysts have completed all the requirements. Our justification for still giving them certification for those methods is that if a lab that had a current certification lost an analyst, we would not pull their certification for those methods, they would also just need to provide us with the proper documentation or we would check the documentation at the next onsite.

Have a good weekend,  
Chris

**Subject:** RE: CDPH Draft Letter and Report for your review

I made a couple of edits. Can you accept or decline and send me back a clean copy to send to Duane electronically. I envision he will have an opinion about the 508 methods which don't have an analyst – don't know what it will be.

Hi Peter,

Chris and I have reviewed and accepted the corrective actions from CDPH. Attached are the draft letter and report for you and Duane's review. I will bring you the routing folder with the certificate today. Just to note, CDPH's current certification expired on **January 31, 2020**.

OneDrive was not working for either of us ....
